

PRODUCT DATA SHEET

PRODUCT NAME : SYNTHETIC BRISKET SAW OIL

PRODUCT CODE : FF195

SYNTHETIC BRISKET SAW OIL is a unique blend of Polyalphaolefin and other synthetic fluids combined with a complete anti-friction and anti-wear package, producing non-toxic oil developed for saws used in Meat production.

COST SAVING BENEFITS

1. Low friction coefficient provides excellent lubrication and reduces wear
2. Fully synthetic oil provides extreme stability and ensures greatly extended servicing intervals
3. Low foaming which extends maintenance intervals
4. Exceptional water resistance, excellent separation prolongs component and fluid life.

METHOD OF APPLICATION

SYNTHETIC BRISKET SAW OIL is suitable for saws requiring lubricating oil between 100 and 150 ISO viscosities. Follow manufacturer's instructions. It is important to purge the saw of the previous oil prior to recharging with SYNTHETIC BRISKET SAW OIL.

TYPICAL PHYSICAL CHARACTERISTICS

Appearance	Clear fluid
Base Fluid	a blend of synthetic fluids Including Polyalphaolefin
Viscosity	ISO grade 100
Temperature range:	-30°C to +240°C

This lubricant is recommended for use where incidental contact with food may occur. Registered by INS (Class H1) and NSF (Class H1) and meets the USDA H1 guidelines (1998) for lubricants for use where there is a potential for incidental food contact.

Made only from substances permitted under the US FDA Title 21 CFR 178.3570, 178.3620 and/or those generally regarded as safe (US 21 CFR 182) for use in food grade lubricants.

To comply with the requirements of US 21 CFR 178.3570, contact with food should be avoided where possible. In the case of incidental food contact, the concentration of this product in the food must not exceed 10 parts per million (10mg/kg of foodstuff). In locations and/or applications where local legislation does not specify maximum concentration limits, it is recommended that this same 10 ppm limit be observed, as up to this concentration FF195 Brisket Saw Oil will not impart undesirable taste, odour or colour to food, nor will cause adverse health effects.

Consistent with good manufacturing practice, use only the minimum amount necessary to achieve desired lubrication result and take appropriate corrective action should excessive incidental contact with food be detected.

All ingredients are FDA listed as Food Grade Chain Spray

INS H1 Registered and meets the USDA 1998 H1 guidelines INS Registration No. **1795060**

This product contains no nut derived or genetically modified ingredients.
